★ Mission

To optimise energy costs and contribute towards a green sustainable environment.

★ Vision

To become largest and renowned solar EPC service provider in the country.

ABOUT US

Jupisol Power stands at the forefront of the sustainable energy revolution, driving the transition to reliable and affordable energy systems. Our journey began in 2017 as DSP Solar Technologies, a proprietorship firm, evolving into Jupisol Power, a Private Limited Company, in May 2022.

With over 14 years of expertise in Solar Photovoltaic Systems and an impressive track record of installing 14+ MW of solar capacity, our team of 20+ skilled professionals is committed to providing turnkey solutions for solar projects. From detailed design and engineering to the supply of complete BOM, installation, commissioning, and seamless liaison, we offer end-to-end services.

At Jupisol Power, we believe in making solar energy accessible to all. Our easy financing options ensure that our clients can embrace sustainability without barriers. As an authorized channel partner of TATA Power Solar, we bring cutting-edge technologies and a wealth of experience to every project.

Join us in shaping a greener, more sustainable future. Choose Jupisol Power and be part of the energy evolution!
